

For busy graziers!

- Identify and explore your enterprise's strengths and weaknesses
- Get the latest on information and legislation to help run a successful grazing business
- Get technical advice to help give you that extra edge
- This is a rare opportunity to benchmark your management practices against whole of industry
- Complete all 5 Grazing BMP modules in one manageable block over one and a half days
- No cost to producers – funded by OBE Organic & the Queensland Government's Building Drought Resilience Project
