

Mulga nutrition and forage workshop

This field day will entail:

- land condition and forage budgeting for mulga
 - forage budgeting in mulga—in the paddock
 - pasture quality and diet quality
 - Dry matter intake and how we manage it. What do you feed? *Email your labels from any supplements you're currently feeding prior to the workshop, and on the day, bring in hay samples or licks that you are feeding.*
 - how to collect dung samples for NIRS analysis
 - nutritional and supplementary requirements for stock on mulga country—nutrient balance and differences between breeders and store cattle
 - sheep nutrition
 - weaner nutrition—feeding programs for different weight groups
 - opportunity to speak one-on-one with presenters about your current situation.
- **Lunch, morning and afternoon tea provided.**
