

Phosphorus feeding St Anns Station Belyando Crossing

Thursday 28th November 2019
8:00 am – 2:30 pm

Workshop covers:

- Identifying P deficient country.
- Testing for deficiencies in cattle.
- P deficiency in breeders and growing steers.
- Supplementing P in the most economical way.

Speakers:

Rob Dixon (QAAFI – University of QLD) is a ruminant nutritionist with many years of experience in northern production systems, including Phosphorus nutrition in growing and breeder cattle.

Mick Sullivan (DAF-Rockhampton) is a beef extension officer with extensive experience in beef cattle breeding and genetics, nutrition, grazing management and beef business analysis.

Peter Carmona (DAF-Charters Towers) has recently started as an extension officer in Charters Towers, and has experience with beef cattle nutrition and grazing land management.

Please register by 14th November at:

<https://www.eventbrite.com.au/e/phosphorus-feeding-at-saint-anns-station-tickets-78909022009?ref=estw> or contact Peter.

**Queensland
Government**
