

Soil Biology Workshop

Tuesday 18 May, 8.30am - 3pm
Kilcummin Hall, Kilcummin School

Join CHRRUP for a free information day with guest speaker Simon Mattsson, focused on ways to improve and understand the biological health of your soil. Bring your questions and your soil test if you have it!

Topics covered will include

- Soil biology: why it matters
- Principles to improve biological function
- Using cover crops, plant diversity and legumes for pastures and cropping
- Compost and biofertilisers
- Biological products - stimulants and biofertilisers.

For catering purposes, please RSVP by Tuesday 11 May to
Zach Moore T: 0427 257 361 E: zach@chrrup.org.au
