

Weaner Management & Nutrition Workshop

Are your weaners performing?
Are your cows getting back in calf?

Come along to learn how to best manage your breeders, your weaners, and your grass.

We will supply:

- Morning tea and lunch
- Lick intake calculations
- Weaner management book

Please bring:

- Labels from any weaner lick products you are currently feeding

RSVP 16th March

Wed 24 March - Woodstock - Rec Hall, Glenn Rd

Thurs 25 March - Clare - Mio College, 1450 Barratta Rd

8:45 am – 2:30 pm NO COST

This workshop will help you to understand and improve your weaner management, breeder herd performance and pasture management.

Topics covered include:

- Identifying when to wean
- Links between time of weaning and cow performance
- Nutritional requirements of weaners
- Calculating how much of a supplement to feed
- Early weaning
- Weaning techniques from other producers
- Grazing management and feed budgeting

The team:

Jim Fletcher (DAF) Jim is a Beef Extension Officer with extensive experience in grazing management, nutrition and breeder management.

Megan Willis (DAF) Megan is a Beef Extension officer with a broad knowledge of grazing land management and forage budgeting.

Bec Clapperton (DAF) Bec is a Beef Extension officer with experience in northern production systems and grazing.
