

FutureBeef

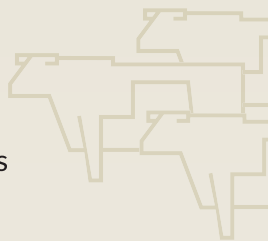

A stronger northern Australia beef industry

The FutureBeef Program for Northern Australia will provide you with the right information on how to improve your productivity and sustainability.

Extension staff are ready to help you to take advantage of the benefits associated with adopting research technologies and best management practices.

Visit futurebeef.com.au to find out how to contact them and learn about the latest:

- Workshops (nutrition, breeding, grazing, and business management)
- Producer demonstration sites
- Facilitated producer groups
- Research projects and field days
- Webinars and forums
