

Pest Animal Management and Chemical Training Workshop

AgForce is pleased to offer Queensland rural landholders a new service that will help you to get ahead of the game and access the most up-to-date tools to manage pest animals.

This one-day workshop for landholders will include practical training and information on the latest pest animal control tools specific to your industry's pest animal issues. Included in these workshops is nationally accredited chemical handling safety training for safely preparing, delivering, transporting and storing chemicals.

You will receive (at no cost):

- Training on new baits and tools, including PAPP baits, Canid Pest Ejectors with 1080 capsules - **Certificate of Participation**
- Eligible experienced participants may qualify for a **Statement of Attainment** in the following nationally accredited units:
 - AHCCHM303 - Prepare and apply chemicals
 - AHCCHM304 - Transport and store chemicals
