

PROPERTY COMPUTER MAPPING WORKSHOPS

AgForce Queensland in conjunction with Grazing Futures are proud to be delivering property computer mapping workshops for producers.

Spend a day with our mapping professionals to get you started on your property map. Computer mapping is one of the most effective property management tools available to producers, helping to improve productivity and planning and achieve best management practice standards.

What producers will receive:

- » Learn the advantages of using a property map as a property management tool
- » Set up your map project
- » Start to draw your property infrastructure e.g. paddocks, fences & water points
- » One-on-one training with qualified mapping trainers so you get the most out of the day
- » GPS device demonstration to illustrate linkage to mapping program
- » How to use elevation data for 3D mapping
- » Property data analysis demonstration: buffering objects for water/riparian/grazing planning, attach photos for monitoring purposes, create Grazing Pressure report, 3D mapping, linkages with Phoenix Grazing
- » Take home your property data and the most up-to-date government vegetation mapping and elevation data

CUNNAMULLA - Tuesday 14 November
MORVEN - Thursday 16 November

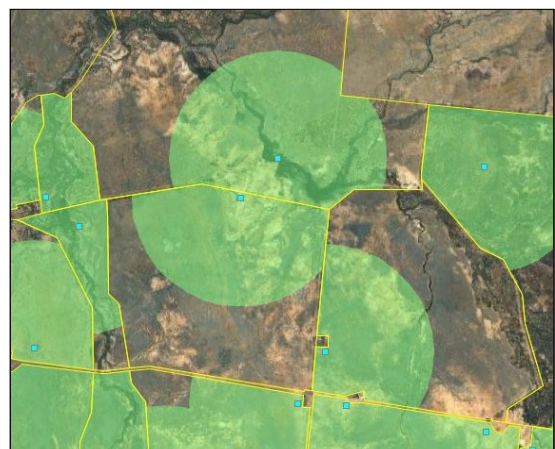

Cost: \$30 per person (inc. morning tea and lunch)

Workshops run from 8:30am to 4:00pm.

Places are strictly limited. RSVP by 8 Nov 2017.

Example of a property map showing paddocks and water points

Using the buffering tool allows you to analyse grazing pressure in each paddock

Workshops are funded by AgForce Queensland and Grazing Futures.
GrazingFutures is an initiative of the Queensland Government to improve drought preparedness and resilience for Queensland producers.
