

Herd and pasture masterclass

NQ Dry Tropics and DAF invite you to attend a day for graziers that focuses on improving herd efficiency and production in the north.

No topic is off limits when it comes to improving your herd and pasture management. We invite you to pre-register your burning questions for discussion throughout the day, or come armed with topics that interest you.

Presented by:

Dr Ian Braithwaite, northern Australian cattle veterinarian and passionate advocate for improved efficiencies in the northern beef herd and businesses

Bob Shepherd, DAF Grazing Land Management Beef Extension Officer and specialist in soil conservation and the management of grazing lands using appropriate stocking rates.
