Time

Day 1: 8am-5pm Day 2: 8am-1pm

Smokos and lunch provided

To be a more profitable and sustainable business...

The Grazing BMP program is a voluntary, industry-led process to assist graziers to identify ways to improve practices that enhance the long term profitability of their enterprise. The workshop will guide you through your self-assessment using the five modules in the Grazing BMP program:

- Grazing land management – Rhonda Toms-Morgan, Connect Ag
- Soil health – Bruce Alchin, Bruce Alchin and Associates
- Animal production – Andrea Wiles, Department of Agriculture and Fisheries
- Animal health and welfare – Jed Taylor, Biosecurity Queensland
- People and business – Tony Koch, Queensland Rural and Industry Development Authority

Your self-assessment will inform and guide training programs to assist with your enterprise in the coming months.

RSVP by 1 March 2018 to:

Andrea Wiles (DAF)
