

For busy graziers!

What is it?

Grazing Best Management Practice is a voluntary online self-assessment tool developed with the assistance of Queensland graziers. The workshop provides you with a chance to assess your current practices and discuss opportunities with like-minded producers and experts.

- This is a rare opportunity to benchmark your management practices against whole of industry.
- No cost to producers – funded by the Queensland Government's GrazingFutures Project.
- Complete all 5 Grazing BMP modules in one manageable block over one and a half days.

Modules

Grazing land management

People and business

Animal health and welfare

Animal production

Soil Health

Presenters

Rhonda Toms-Morgan (Connect Ag)

| managing the land resource | managing grazing pressure
| mapping | land capability | weeds and pest animals

Tony Koch (QRIDA)

| financial risk management | succession planning | business analysis
| work/life balance | effective communication

Jed Taylor (DAF)

| health management program | animal welfare
| extreme weather and predation | biosecurity | transport

Andrea McKenzie (DAF)
