

PROPERTY MAPPING AND GPS WORKSHOP

AgForce Queensland in conjunction with *GrazingFutures* is proud to be delivering a property computer mapping and GPS workshop for producers.

Spend a day with our mapping professionals to get you started on, or continue with your property map. The workshop will assist you to improve business productivity and planning, and achieve best management practice standards.

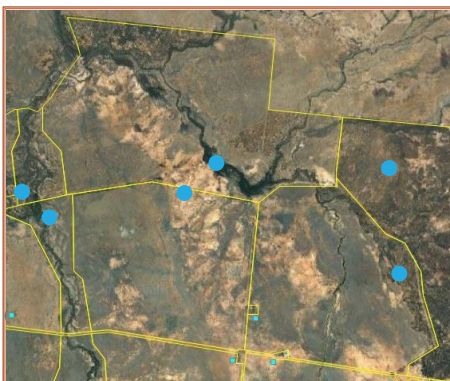

You will also receive information on vegetation management, biosecurity tips and resources, and an update on the Drought Relief Assistance Scheme.

What producers will receive:

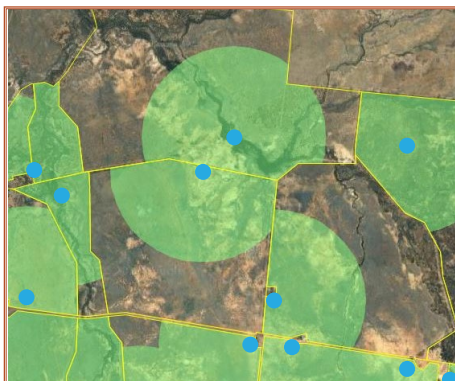

- » Learn the advantages of using a property map as a management tool;
- » Draw property infrastructure e.g. paddocks, fences & water points;
- » One-on-one training with qualified mapping professionals;
- » Take home property data including up-to-date government vegetation mapping layers and elevation data;
- » Support from industry providers on using and maximising the benefits of your map; and
- » Information and an insight in to the use of a handheld GPS.

MORVEN (Morven Hall)
Thursday 25 October 2018

\$30
per person

Example of a property map showing paddocks (yellow lines) and water points (blue dots)

The buffering tool allows you to analyse grazing pressure in each paddock around your water points

Smoko and lunch provided.

Places are strictly limited.

Please RSVP to avoid missing out. The workshop runs from 9am - 3pm. Please RSVP by October 18 to allow sufficient time for processing property data.
