# Your Invitation

---

**Bruce McConnel, General  
Manager, TSBE Food Leaders  
Australia**

Southern Queensland is the home of intensive animal industries in Australia. The region has many advantages that see continued strong investment in the beef, pork, poultry and dairy sectors. With our reliable grain production, significant infrastructure spending in air, road and rail and available workforce, Southern Queensland will continue to drive these industries within Australia.

The 2019 Intensive Animal Industry Conference to be held in Dalby on March 7 will bring together all of these four industries with the view to share best practice, advocate for common policy change and allow collaboration across the sectors. Building on the success of the 2018 event, which in its inaugural year saw 130 industry participants attend the conference, this year has been expanded to include the Dairy sector.

The conference, held in Dalby in the Western Downs Regional Council's recently completed new events centre will be a must attend event for all industry participants.

TSBE are managing the event, and welcome the opportunity to discuss your engagement for the Intensive Animals Conference. Should you have any queries, please contact myself or Katrina Rojek for more information.
