

Feed or sell this dry season?

*An exclusive workshop
only for Grazing BMP
producers.*

We will supply:

- Smoko and lunch
- Feed or sell tools
- Lick comparison & intake calculators

Please bring:

- Labels from lick products you are currently feeding and cattle intake information

Register for any workshop online at:
<https://feedorsell.eventbrite.com.au>

RSVP dates:

Alpha & Emerald – 21st March
Moura – 3rd April

For more information contact:

Kylie Hopkins on 4843 2615
kylie.hopkins@daf.qld.gov.au

Thurs 28th March – Golf Club, Alpha
Fri 29th March – Queensland Government office, Emerald
Wed 10th April – Tavern, Moura

8:30 am – 5 pm NO COST

Are you holding stock that will not reach normal target markets with the limited feed remaining? This workshop will help to answer these questions:

- Is it economically smarter to sell today or production feed to reach target markets?
- How can you assess cost effective supplementation for maintenance?
- Will your grass last?

Why reassess your Grazing BMP modules?

- ✓ *Check off or update your action plans*
- ✓ *Evaluate your progress since completing your last assessment*
- ✓ *Contribute to industry data*

**New format for
Grazing BMP
reassessments**

The feed or sell team from DAF:

Tim Moravek & Daisy-May Denny Tim and Daisy are agricultural economists who have been working with graziers to assess the impact of management strategies on business performance.

Matt Brown Matt is a beef extension officer with extensive experience in cattle management, genetics and herd performance. Matt co-ordinates DAF's delivery of Grazing BMP in the Fitzroy region.

Byrony Daniels Byrony is a beef extension officer who specialises in dry season nutrition enquiries and cattle production in the Central Highlands region.
