

Have you weaned and your cows look a little like this?

To register for this webinar, [click here](#).

Do they look a little light or not quite where you would like them to be?

This webinar will show you:

- Examples of what would happen to your cows if you weaned 30days earlier.
- How much grass a cow and calf eats compared to a cow and a weaner and how much this costs?
- How many extra cows will be in calf by increasing their weight by 10%?
- Tools, calculators and assistance is available.
- Tips, tricks and lessons learnt from producers who have carried out early weaning.

**12:30 – 1:30pm Monday 3<sup>rd</sup> of June**
