Ametdale grazing demonstration field day

Wednesday, 7 August 2019

8:30am – 4:00pm

About the day

Join the Northern Grazing Demonstration Team from the Department of Agriculture and Fisheries (DAF) and Ian and Penny MacGibbon from Ametdale to see a paddock scale demonstration of stocking around long-term carrying capacity, adjusting stocking rates proactively as seasons vary and wet season spelling. Hear how this relates to 20 years of grazing systems research at the Wambiana Grazing Trial, Charters Towers. There will also be an update on progress with the pasture dieback projects.

Key speakers include:

Peter O'Reagain, DAF Charters Towers
Mick Sullivan, DAF Rockhampton
Ian MacGibbon, Ametdale
Stuart Buck, DAF Rockhampton

Peter O'Reagain, DAF:

"Come and see how over 20 years of data shows how better grazing/land management directly improved profitability."

Mick Sullivan, DAF:

"Good breeder management can enable the same productivity with less grazing pressure and greater ability to adjust stock numbers in response to seasonal conditions."
