Workshop experts

Dr Dianne Woods, Kyarra Holdings - Veterinary Surgery Rolleston

Dianne joined the team at Kyarra Holdings in April 2018. Dianne is originally from a sheep station on the Nullarbor Plain in WA and her love of cows, horses and working dogs brought her to CQ where she loves being a mixed practice rural vet. She especially appreciates the variety of mixed practice work and is absolutely loving the CQ region and fabulous community.

Vet Dianne has obtained certification as an accredited ACV BullCHECK Bull tester and is passionate about working with clients to improve fertility in their herds.

Byrony Daniels, Department of Agriculture & Fisheries (DAF)

Byrony is an Emerald based beef extension officer with a whole of business approach to her role providing practical management advice to graziers. A local to the Central Highlands Byrony has spent the last 10 years working for DAF building experience in herd management, grazing land management, beef cattle nutrition and genetics. Springsure is a special place to Byrony, as she now spends much of her weekends managing 'Nelson', 9 km to the east of Springsure.

Dr Lee Taylor, Zoetis

Lee has worked with Zoetis for 12 years, as technical support to the Zoetis livestock business in northern Australia. Lee graduated from the University of Queensland in 1988. In 1993 he completed a 2 year residency program in beef cattle herd health at the University of Saskatchewan in Canada where he conducted some of the early research on the impact of bovine pestivirus in beef herds. Lee has worked in a range of different roles including private veterinary practice, as a government veterinarian based in Biloela in central Qld & in his current role with Zoetis.
