

**FARM VISIT**

6th September

# High Steaks III

## Livestock in focus

*Heifer Development & Managing Pestivirus*

We invite landholders to join expert cattle vet **Enoch Bergman** from Western Australia for a comprehensive workshop on the importance of cattle vaccination and heifer development. The day will cover practical yard demonstrations and a group discussion around the ethics of producing beef over a sausage sizzle.

Combining the latest in research and development with practical know-how, this course is designed to integrate new knowledge into your grazing business to help improve your bottom line.

### EVENT PROGRAM

#### Session 1: Building a Better Cow

- Heifer development strategies to optimise reproductive performance and herd structure

#### Session 2: Practical Yard Demonstration

- Bovine Pestivirus (BVD) sample collection techniques
- Optimal vaccination techniques

#### Lunch

#### Session 3: Systematic Management of Bovine Pestivirus

- The What, The Why, and The How of Controlling BVD

*Workshop closes with a panel discussion, followed by a networking discussion around the ethics of producing beef 'Proud to Produce Protein' + Free Sausage Sizzle*

### DETAILS

#### FREE WORKSHOP & SAUSAGE SIZZLE
