

Can you improve your phosphorus management with help from Department of Agriculture and Fisheries staff?

Feeding Phosphorus at Jericho

Could you be feeding phosphorus more efficiently?

Wednesday 27 November - Jericho

- Are all my landtypes P deficient?
- Am I feeding my breeders enough P?
- Supplementing P In the most economical way.

Guest Speaker - Rob Dixon (Uni of QLD)

Rob is a ruminant nutritionist with many years of experience in northern production systems including phosphorus nutrition in growing and breeder cattle.
