

# Productive & Persistent Legume Pastures: Making legumes work for you

8am—5pm

Thursday 14 November 2019

Begonia Sports Centre

**Limited spaces available. Smoko and lunch provided.**

## Learn about the latest legume research for sown pastures

- ✓ Reliable techniques to successfully establish legumes into existing sown pastures.
- ✓ How to select the right legume for your situation.
- ✓ Tips for managing legume-grass pastures for long term productivity.
- ✓ Develop a legume establishment action plan.

DAF's *Legume BMP in the Brigalow Belt* project aims to improve the productivity, profitability and sustainability of beef enterprises through reliable and successful use of pasture legumes. In the last 2 years the project team has run 19 workshops attended by over 300 graziers.

Don't miss your chance to hear from team of highly experienced sown pasture agronomists, Gavin Peck, Brian Johnson and Louise Newman.

### Personalised support for a new planting

There will be an opportunity for producers to be involved in on-farm legume establishment demonstrations post workshop. Expressions of interest will be taken during the workshop and producers who participate will receive technical support for a new sowing.

RSVP

RSVP by 5:00 pm **Tuesday 12 November 2019**

RSVP essential. Please contact:
