

Practical Cattle Nutritional Management Workshop

Deliverer: Désirée Jackson

Désirée Jackson Livestock Management

16-17 November

“Cave Creek” Station, Mataranka, NT

Ideal opportunity to train up staff prior to the start of the next season. Suited for station staff to head stockman level, but everyone is welcome.

Topics

- Rumen function and digestion
- Nutrients cattle require and their function
- Water quality
- Plant groups and their nutritional value
- Assessing pasture quality and diet quality
- Assessing hay and feed supplements
- Weaner management
- Heifer nutrition and management
- Breeder nutrition and management

Price

\$350 + GST

Cost includes set of workshop notes

Registrations are essential

To register contact:

Désirée Jackson

M: 0409 062 692

E: desireejackson@djlm.com.au

Training will include practical sessions out in the paddock.
