

REGENERATIVE AGRICULTURE WORKSHOP - ROMA

Do you want to improve land condition at your place? Heard of 'Regen Ag' but unsure what it actually means for you?

Interested landholders are invited to hear about regenerative agriculture principles and how they can be implemented, as well as climate information and vertebrate pest management strategies. Hear from speakers:

Brian Wehlburg from 'Inside Outside Management' about:

- How to use cattle as a tool to create productivity within a landscape
- Overcoming the effects of drought and becoming rain ready
- Increasing the productivity and profitability of your farm

Paul Webb from SQ Landscapes and Northern Australia Climate Program about:

- Local climate and links to climate drivers like ENSO, MJO
- Accessing and using seasonal climate information

Darren Marshall from SQ Landscapes about:

- Vertebrate Pest Management – New Tools and Current Research

WHEN: Thursday 19th December 2019 from 8:30am onwards

WHERE: Lorraine Station, 1124 Eumina Road, Orallo, Roma.

RSVP: RSVP's are essential by Thursday 12th December 2019

to Maree Tulley via maree.tulley@sqlandscapes.org.au or 0428 759 235.

BBQ tea, smoko and lunch provided.
