

Drones in the beef game

Masterclass with Fiona Lake

Come along to this fully funded workshop to learn the A to Z of drone use, specifically for beef producers.

Workshop will cover:

- Everything drone pilots need to fly safely and productively on northern cattle stations
- Drone mythbusting – where they are helpful, where they are not
- Practical and useful Agtech for beef enterprises
- Hands on flying practice for the first 20 to RSVP!

All experience levels welcome.

About the presenter:

Fiona is a multi award-winning agricultural photographer and drone educator; one of the few fully licenced drone pilots in northern Australia. She has been a speaker at conferences on four continents and presented drone information to more than 3,000 people. Coming from a rural background and having a keen interest in Agtech, Fiona is well versed in the challenges faced by and opportunities available to primary producers.

Please note that this is not a photography workshop.
