

# Building Farm Business Resilience

**Come and learn about new drought assistance and resources, discuss drought management ideas, and identify learning opportunities at this free workshop!**

## About

As part of Queensland's drought reform, Drought Preparedness Grants offer up to \$50,000 as a co-contribution grant to assist primary producers undertake on-farm capital improvements that will improve the drought preparedness of their property.

## Assistance

To access these grants and other drought support measures including no and low interest loans, producers will need to have a Farm Business Resilience Plan.

To assist producers with this, the Department of Agriculture and Fisheries Queensland (DAF), Rural Solutions Queensland Inc (RSQ) and Queensland Rural and Industry Development Authority (QRIDA) invite you to a workshop to learn more about the new policy, how to apply and to discuss drought management ideas for adoption and funding.

GrazingFutures Livestock Business Resilience improves drought preparedness and viability of Queensland livestock producers and is jointly funded by the Australian Government's Future Drought Fund and the Queensland Government's Drought and Climate Adaptation Program.
