

# Farm Business Resilience Program

## Free workshop to build business resilience for drought

### What's your plan?

Drought and hard times are a reality for primary producers. Southern Queensland Landscapes, Rural Solutions Queensland, QRIDA and the Department of Agriculture and Fisheries invite you to join us for an interactive workshop to improve the resilience of your grazing enterprise.

These free workshops will cover:

- the Farm Business Resilience Program
- evaluating the risks to your business
- developing and documenting ways to mitigate risks
- best practice management and innovations in grazing
- steps to developing your business plan
- grants and loans currently available through QRIDA.

Come along and meet fellow producers from your region, share ideas and talk all things grazing.

#### Eulo – Shire Hall

Wednesday 3 May 2023
