

RISING FROM THE ASHES: Regenerative Ranching in the Desert

A GRAZING
WORKSHOP

Alejandro Carrillo

Topics

- The water cycle
- Soil fertility
- Indicators
- Genetic Selection
- Regenerative Grazing
- Making invasive plants & pests irrelevant in our grasslands
- Risk management
- Return on investment

Latrobe Station
LONGREACH QLD
1st & 2nd September

On Las Damas Ranch, Mexico, in the arid landscape of the Chihuahuan Desert, Alejandro's management has improved soil health and water infiltration; escalating pasture production, biodiversity and livestock numbers, to create a profitable, resilient business.
