

SOILKEE Renovator Demonstration Day

MALANDA, 6 JUNE 2024 (9.30AM)

WHAT IS IT?

Made in Australia, the SOILKEE Renovator is a pasture cropping system that plants seasonal crops and pasture seeds into existing pastures. As a minimum till machine, it helps improve soil structure by only disturbing 20% of the pasture, leaving 80% to be used as a cover crop.

Using the SOILKEE activates regenerative soil function leading to increased soil carbon, water holding capacity and nutrient availability.

Come along to hear how well it has performed in a trial in Malanda.

EVENT DETAILS

VENUE: Glenview Farm, 288 Malanda-Atherton Road

TIME: 9.30am start, 6 June 2024

TICKETS: \$20 (incl. lunch and refreshments)
