MEAT & LIVESTOCK AUSTRALIA

Maidens, Measurement & Merch Field Day

 **12 June 2024 | 9am – 5pm**

 **'Beaconsfield', Ilfracombe, Queensland 4727**

Learn about the:

- ❖ PDS and its results
- ❖ Importance of wet and drying for improving flock fertility
- ❖ Value in weighing your sheep
- ❖ Process for using data to make decisions
- ❖ Equipment and technology available for managing electronic identification (eID) tags

Learn how to:

- ❖ Wet/dry ewes
- ❖ Conduct udder assessments
- ❖ Body condition score
- ❖ Collect data via eID tags
- ❖ Implement these practices

Want to find out how eID and data collection work in the yards?

On display → sheep handlers, autodrafters, eID tags and tag applicators, sheep immobilisers, wands, readers and weighing equipment. Check out a range of equipment and technology.

Come and have a chat to producers collecting and using data for management and decision making in their flocks. Discuss the benefits, challenges and realities of this in western Queensland sheep businesses.
