

# Animal Nutrition & Soil Health

## POST FLOOD LEARNINGS: A DEEP DIVE

Join BMRG for our FREE Industry Recovery and Resilience presentations in Gympie and Gayndah this July. Listen to leading experts on how to build resilience in livestock herds and landscapes to better manage the impact of flood. Engage with the presenters and ask your pressing questions in the Q&A session. Enjoy morning tea and lunch on us, and the chance to catch up with fellow producers.

### KEYNOTE SPEAKERS

- **Jim Wade** – Animal Nutritionist from Wade Agriculture Services brings over two decades of expertise to the table. Jim will present on the importance of optimum health in livestock to be prepared for extreme weather events.
- **Ian Moss** – Agronomist and founder of FARM Agronomy, specialises in regenerative principles, pasture diversity and soil health for optimum production. Ian will demonstrate the importance of getting the balance right to support profitable farming.
- **Cameron Leckie** - Soil Specialist and Regional Coordinator for SQNNSW Innovation Hub will be taking us on a “deep” dive into test results on flood inundated soils across the region as part of the National Soil Strategy.

Connect to support services and funding opportunities currently available to eligible primary producers with presentations on the Farm Business Resilience Program, QRIDA and our Industry Recovery and Resilience Officer program (IRRO).
