

Farm Business Resilience Program

Soil Pit Day

The Farm Business Resilience Program and the Sustainable Grains Practices team invites you for a morning in the paddock to discuss the importance of soil structure, identify soil constraints, and management options for growing productive and profitable crops.

What to expect:

- Soil characteristics of the region
- Soil fertility and health under different management
- Explore soil constraints (sealing and running-off, hard setting, soil carbon status in continuous cropping/grazing country)
- Examine plant root growth
- How to improve soil moisture retention and infiltration
- Impact of soil compaction
- Soil properties that drive soil resilience

DETAILS

Time: 9am to 12pm

Cost: Free (Lunch provided)

Jambin

23rd July

4 km south of Jambin along the Burnett Hwy

Rolleston

24th July

'Venus Downs'
10km along Blackwater Rolleston Road
