

Farm Business Resilience Program

Cattle, Carbon and Sustainability

Join us in Gympie to discuss carbon opportunities for your grazing business.

This workshop will help graziers make informed decisions about carbon sequestration and emissions reduction strategies. Topics covered will include:

- Carbon sources and sinks
- Emission baselining – what data will you need to complete an account
- Reducing emissions on farm
- Carbon projects and the associated legalities
- Market signals — is the market ready for carbon-reduced products?

Hear from experienced facilitators:

Josh Peart (Grazing Scientist), Christophe Bur (Director, Quentic and Climate Active certified consultant) and Jodie Ward (Beef Extension Officer).

This event is jointly funded through the Australian Government's Future Drought Fund and the Queensland Government's Drought and Climate Adaptation and Reef Water Quality Programs.

Date: Friday, 20th of December

Time: 9am-4pm

Address:
Gympie

Cost: FREE!
We will provide smoko and lunch

RSVP: Friday, 13th of December 2024
