

Farm Business Resilience Program

Free workshop to build business resilience for drought

What's your plan?

Drought and challenging times are a reality for primary producers. Department of Primary Industries, Rural Solutions Queensland, Queensland Rural and Industry Development Authority and Southern Queensland Landscapes invite you to an interactive workshop to improve the resilience of your grazing enterprise.

At this workshop, you'll:

- Learn about the new drought loans & grants available to producers & how to access them.
- Step through developing a Farm Business Resilience Plan and be provided with resources.
- Discuss different risk management strategies with fellow producers and speakers.

Come catch up with local producers, share ideas and talk all things grazing

This program is jointly funded through the Australian Government's Future Drought Fund and the Queensland Government's Drought and Climate Adaptation Program.
