

Grazing land management EDGE

Charleville Qld: 17 – 19 June 2025

VENUE Newmarket Room, Racecourse Complex, Charleville

TIME 8:30am to 5:00pm all days

A three-day workshop to give you a thorough understanding of the grazing land environment in which you operate. You will leave with the knowledge to strategically manage your grazing business so you can optimise your land condition and productivity in the long-term.

Attending this workshop will help you to:

- understand how your land types influence productivity
- recognise the dominant land types in your region and on your property
- understand how soil properties influence plant growth
- understand soil health and the factors that impact on it
- know what land condition is, how it's assessed, and how to manage livestock to maintain or achieve good condition
- understand the role of fire in your country
- understand the principles and planning steps for successfully managing weeds.

What you will learn:

- selective grazing, its function, and how to reduce impacts
- how to identify key plant species
- the ecosystem processes that underpin productivity
- basic principles of effective grazing systems
- how to assess long term carrying capacity of paddocks and properties
- forage budgeting to manage variation in pasture on offer
- how to choose appropriate tools and strategies to improve land condition and carrying capacities.

What do other producers think of GLM EDGE?

General feedback

"All aspects were valuable as a whole of business perspective. Great tools especially if you don't know your country or are purchasing a new property."

"Great to be able to work out LTCC for your cattle to look after pastures."

"It was all very helpful to me on gaining a better knowledge of what goes into stocking as well as getting the best out of pastures."

"Greater understanding of value of grasses and soil conservation."

"Comprehensive, valuable, worthwhile".

The presenters of GLM

"The knowledge base of all presenters was very evident and presentations were enjoying."

"Very well presented, they understand we're active people and presented in a way we could understand."

"Both presenters had an extensive knowledge of all subjects covered. They were all presented extremely well and in an engaging manner. I gained a very good understanding of the topics covered."

"High degree of expertise and experience."

Value for time & money

"It was a very valuable investment. None of the participants will look at their paddocks the same."

"If managers implement what they learned the benefit will be significant."

"A great investment - gained a lot of good knowledge for my career and personal ventures."

"Excellent for stepping up in your job and understanding your property and options to get your best production."

Price

Subsidised rate of \$880* inc GST per person (usually \$2,145pp)

* Subsidy provided by Southern Queensland Landscapes

Cost includes comprehensive set of Workshop Notes and Workbook as well as lunch, morning/afternoon tea each day.

This event is jointly funded through the Australian Government's Future Drought Fund, the Queensland Government's Drought and Climate Adaptation Program and Southern Queensland Landscapes.
