

Grazing management

Decision date 3

PROPERTY INFORMATION

PROPERTY NAME

MEDIAN ANNUAL RAINFAL

WHEN IS THE MIDDLE OF YOUR NON-GROWING SEASON?

(eg. 30 July)

DECISION DATE 3 - MIDDLE OF NON GROWING SEASON

ACTION

Review the forage budget made at Decision Date 2.

Change the starting date and revise the starting pasture yield. Ensure stock numbers are accurate.

QUESTIONS TO ASK AT THIS TIME

How is the season progressing?

Did you underestimate the starting yield in the original forage budget?
If so, can you capitalise on the extra forage?

Did you overestimate the starting yield in the original forage budget and will now run short of pasture?
If so, what stock can you offload to avoid grazing below the desired residual?
