FutureBeef (DAF) speaker, Tim Emery, will discuss practical ways to improve herd fertility and profitability. Topics covered include:

- Developing breeding objectives
- BULLCHECK™ and understanding morphology
- Estimated Breeding Values (EBVs) – how to make effective use of them
- Understanding what valuable information can be accessed online
- Breeding program options
- Key findings from multiple research projects: Beef CRC, Bull Power, BIN projects etc.

Improve your

PRODUCTIVITY
PROFITABILITY
SUSTAINABILITY

Speaker: Tim Emery

FutureBeef (DAF) beef extension officer based in Roma. Tim also runs a commercial beef herd at Wallumbilla.
