

Bookkeeping Data

How to get the best out of it for decision making

Wednesday 3rd of August, Eulo

Bookkeeping, it's an essential compliance activity for tax. But after 16 years of GST returns, your system now contains a wealth of detailed information about the operation and performance of your business.

In this session we take a look at the way to structure your chart of accounts, so your system delivers quality operational data on which to base your decisions. Using case studies you then get to put your business analysis skills into practice. Presented by Ian McLean of Bush Agribusiness.

Topics include:

- ❖ Setting up your chart of accounts.
- ❖ Analysing business performance
- ❖ Assessing a property lease opportunity

Please book your seat online at Eventbrite. <https://bookkeeping-data-eulo.eventbrite.com.au>

DATE: Wednesday 3rd of August, 8:30am – 5:00pm
VENUE: Town Hall, Eulo
COST: \$50 per business.
